He set fire to lumber yards in Kansas City, and was arrested. The story told by Logan has no parallel in the history of criminals.

He left home when a boy of 10, and early in his wanderings was arrested and imprisoned on the charge of vagrancy. When he regained his liberty he began, for revenge, a career of crime, vowing to destroy he much property as possible. That was been thirty years ago, and since that time he has burned buildings in many states, and has served seventeen years in penilentiaries. A few days ago he went to Odessa, Mo., and met his father, whom he had not seen since he quit his home in 1804. From Odessa, he went to Kansas City to kindle a blaze and pave the way for another term in the penilentiary, outside of which he feels lost, and is unable to make a living. He says of himself: unable to make a living. He says of himself:

THE WAR IN THE EAST.

tatest News by Steamer from China, Ja-pan and Cores, Strongly Japanese in Tener. VICTORIA, B. C , Aug. 18 .- When the

steamship Empress of Japan, which has just arrived here, left Yokohama, news of war and rumors of blockade filled the air. All along the Chinese coasts beacons and buoys were being removed and numerous merchantmen, consequence come to grief. Railway and telegraph lines were being hastily constructed in both Chius and Japan to facilitate speedy transportation of the entrance of all the rivers and further supplies of arms and ammunition were being ordered. Exceptionally stringent press regulations had been adopted to prevent any but officially corrected news being published. Hence it is that all advices by the Empress of Japan are strongly Japanese n tenor.

The chief items of interest in connection with the movement of the navy chronicle the capture of the Chidispatch boat Bang-Yang, Li Hung Chang's favorite; the shelling of the Chinese cruiser Tsi-Yuen, with a the Tsi-Yuen, sister ship of the Chen-Yuen, commanded by Admiral Lui Paitseng. The Japanese newspapers leave the name of the lost cruiser in blank, and only refer to her destruction in the most casual way in obscure corners of their issues.

Strong efforts are being made by the Japanese to throw all the blame for the Kow Shung affair upon piratical Chinese troops on board, who forced Capt. Galworthy to cast himself into the sea to escape being murdered at their hands, and assert that England has the strongest possible claim for damages against China in connection with the Kow Shungs's loss.

The Corean king on the 27th of July released from jail five important prisners of state, the sister-in-law and niece of Boku Yai Ko, the mother of Jo Sai Hitou, and the mother and daughter of Jo Ko Han, who were imprisoned in connection with the rebellion of 1884.

It is generally believed that Boku Yai Ko will be recalled by the king and appointed to some important position. It is reported that the Corear government has officially intimated to Japan that they will promptly sever all connection with China. Preparations are rapidly advancing for the bombarding of the Woo Sung forts, and among the rumors prevailing in Shanghai, when the last mail left, was one to the effect that the defenses of the approach to Shan Kai Kaung,

where the great wall of China meets the sea, had been greatly strengthened. Two of the Armstrong alphabetical boats and two other gunboats were lying in the vicinity, in obedience to instructions from Viceroy Li Hung Chang, while, 2,500 men are being added to the land garrisons. This is strong enough to prevent Shan Kai Kaung being crushed by any small getting through. Japanese naval force that may escape the vigilance of the Chinese cruiser in the gulf of Pechili.

The sale of coal at Kelung, Formosa, has been forbidden to any outsider, the Chinese government requiring the whole supply. The Sai Hing colliery is turning out 2,000 tons of and the probabilities now are that it coal per day, and the coal dust at the mines is now being made into bricks.

The Pei Yang fleet has been divided into two squadrons, one under Admiral Ting-In-Yuen, cruising in the gulf of Pechili, and another under Admiral Li Yai Paitseng, in Chen Yuen, which conveyed the transports which left about the 25th of last month for Corea. The third division is believed to be at Talienwen, ready to escort to Corea the second army corps, under Gen. Sung, of 20,000 men. Most of the troops appear to have been landed at the Yalu river. The Foo Chow fleet, while ostensibly making a demonstration against Loo Choos, is to cruise be tween Formosa and the mainland.

Will Make a Loan-A Fleeing Chinese Fleet-The Kow Shung Inquiry, Etc. LONDON, Aug. 18.-The Shanghai correspondent of the Central News ays that by special decree the Japanese imperial government has author-

ized a loan of \$50,000,000. The Japanese government has promised Admiral Fremantle, who commands the British squadron in Asiatic waters, to give forty-eight hours' notice in case the Japanese fleet bombard Wei-Hai-Wei or Chee Foo.

The eight vessels that passed Chee Foo westward-bound on August 14 were the Chinese fleet which was fleeing from the Japanese cruisers. The fleet went to Lui Kung Tao, northwest of Chee Foo, where it has been left undisturbed by the Japanese.

The finding of the court in the official investigation at Shanghai of the sinking of the Kow Shung, is: that the steamer Kow Shung was sunk on July 25 by a Japanese naval vessel, and that Capt. Galsworthy and the other officers of the Kow Shung showed great coolness and judgment under the trying conditions of the conflict. The court added that the Kow Shung's English officers used all means in their power to avert the catastrophe, and deserved

high praise for their efforts. Torpedoes will be laid at the entrance of Tokio and Nagasaki harbors early in next week.

KIDNAPED.

Two Officers Will Have to Answer a Charge of Abduction

IRONWOOD, Mich., Aug. 18 .- Two ablebodied men, John Manning and Andy Lyons, were kidnaped at Stevens Point Wis. They were American Railway union men, and were arrested on Monday evening on the charge of assault with attempt to commit great bodily harm, and were forcibly brought back to this state without any requisition papers being obtained. United States Deputy-Marshal Goen and Sheriff Eddy of this county will be arrested.

A Desperate Moonshi HUNTINGTON, W. Va., Aug. 18 .- For a week past United States officers have been trying to arrest a desperate moon-shiner named Joseph Taylor. His house in Putnam county is built up high, so that he has a view of the entire country and when officers approach he and his sisters open fire. Deputy Marshal Cate and an assistant were driven off by guns and bull dogs a few days ago and last night another party that went to arrest him was compeled to retreat, one of them receiving a flesh wound. A posse will be organised to get him. REST AHEAD.

The Present Wook Expected to Witnes. Close of the First Session of the Fi Third Congress—Nothing Now to But Clean Up the F sig End.

WASHINGTON, Aug. 30.—There is good feason to believe that the week that opens to-day will see the close of the first session of the fifty-third congress. The work of the senate is fin-tahed; the last of the appropriation bills was completed and the conference rethe Empress of China included, had in log now for the senate to do but to clean up the fag ends of a busy and

very entertaining session. About the only thing that keeps sen-ators here is the tariff bill; and the troops. Torpedoes had been laid at general impression now is that the president will permit it to become law just as soon as the treasury officials are ready to carry it into effect. That he does not intend to veto the bill is clear, for the law points are not being prepared at the government printing After this it is likely that the sen-

ate may meet for a short time daily and then adjourn pending the reception of the tariff bill. Until it is known just when to expect this measure from the president it is not likely that a joint resolution fixing a day for adjournment will be introduced. In the meantime there will be an efloss of sixteen lives, and the sinking of a Japanese cruiser of the first class by pass the house bill to repeal all laws authorizing a rebate of the internal revenue tax on alcohol used in the arts. Mr. Sherman in his "plain talk"

on Saturday showed the necessity for

the passage of that measure; and Mr. Allison will be heard on the same point and on the whole subject of this session's tariff legislation to-day. There was nothing much for the house of representatives, apparently, but to wait for the action of the president on the tariff bill and then adjourn. The adoption of the Murphy resolution in the senate Saturday is taken as an expression of the determination on the part of that body to do no more business, and the futile efforts of the managers of the quorum to vote on the Sugar trust and bounty resolution demonstrated the fact that, like the house, the senate was practically without a quorum. Therefore, it is assumed that

none of the bills vet in conference be

tween the two houses will be further

considered at this session, for it is not

likely that they could be passed, even

were the conferees to come to an agreement thereon. Among this class of measures are two proposed judicial changes, one relating to the powers of commissioners appointed by territorial courts, and the other to the payment of state taxes levied against corporations in the hands of receivers appointed by United

States courts. The committee on rules has notified hairmen of committees applying for a day on which to consider business reported from them that no more alotments of time for that purpose will be made. As long as the house remains in session, bills may be considered and passed by unanimous consent; but nothing that does not meet general approval stands any show of

Just before the house adjourned last Thursday an effort was made to gain consideration for the bill reported by a conference committee and agreed to that day by the senate prohibiting the immigration of anarchists. But objection was made by several members must go over untill next session.

Queer Run In.

CHICAGO, Aug. 20.-City detectives yesterday arrested four expert counterfeiters, who have been flooding the neighborhood of Western avenue for several weeks with spurious silve coin, dollars, halves and quarters The men caught are Thaddeu Strankewicz, Joseph Rosinenitch Casper Steaken and John Kilogski Their victims were store saloon keepers. One of the de tectives discovered Rosinenitch paying for drinks with one of the "queer" dollars and with the aid of other officers ran down the rest of the gang. Strankewicz had a little jewelry store as a blind for his part of the business, plating bad money to make it passable. The police, armed with search warrants, made a concerted raid on the homes of the gang and found plenty of the coin on them.

Position. WASHINGTON, Aug. 20.-Capt. E. W. Nicholson, superintendent of the United States treasury stables, committed suicide yesterday afternoon by shooting himself in the breast. The wound did not cause immediate death, and he was taken to the Emergency hospital, where he died a few hours later. The deceased was from Indiana, his son, Meredith Nicholson, being an editorial writer on the Indianapolis News.

The only cause that can be assigned for the act was despondency. It is said that Capt. Nicholson, who was a republican, was very anxious to visit his family in Indiana, but fearing that if he left his duties to make the visit he would lose his position, he became de

How She Lost Her Centerboard Who Just About to Start in a Race. Cowes, Aug. 19.-Howard Gould say: that the Vigilant struck the ground close to the Needles, the chain of her centerboard broke and the board sank He blames Pilot Diaper for running the sloop aground. Diaper says that at the time he did not know the centerboard was down. Mr. Gould said he did not think the Vigilant could get another centerboard here. He thought she would race again, however, before leaving English waters.

to the Hague Family. ALLIANCE, O., Aug. 20.—Saturda evening John Hague, his wife and 1 year-old child started to drive to Minerva. The horses ran away. Mr. Hague was thrown under the horses' feet. His injuries will prove fanal. Mrs. Hague and the baby were fanal. Mrs. Hague and the baby were also thrown to the ground. The child was killed instantly. Mrs. Hague was badly hurt. Despite this, she walked half a mile to the nearest house and reported the accident. She then fainted, and has remained unconscious since. Her condition is settled.

MEANT THE SAME THING. The Old Complaint Quite the Same, Even The man had grouned so often and coughed so hard that every one in the

car was interested, and one sympathetic passenger inquired: "Got the grip? "No; bronchitis."

"Bron which?" "Bronchitis." "Oh !" There was a spell of silence. The sufferer was from Boston. That was evident because he emphasized the "i" in bronchitis in a way that left no doubt. No one among the passengers dared to tackle the complaint until a series of deeper groans and coughs aroused them to a sense of their duty. Indignant Citizen-Here, you fellow, what do you mean by beating that horse in that way? I've a notion to have you run in.

Teamster-The critter's got to be beat. He always was balky. That's why they took him off the track. "Took him off the track? By gee, it's old Mudhooks, the very horse that lost me two thousand five hundred dollars by balking in the middle of a race three years ago. Soak him again, will you?"-Indianapolis Journal.

-"Hark, the herald angels sing," is the only hymn by Charles Wesley that is included in the Episcopal book of common prayer. It, with five others, was put in by a printer in 4818, who found six pages vacant in his form, and, without asking anybody's permission, filled them with hymns. Nobody knew how they were introduced, and after the printing was done there was no authority for their removal.

-It was once a familiar sight, the man approaching with a hand organ alung upon his back by a broad strap across his shoulder and carrying a stick which might serve as a staff as he walked and which presently he would use to support the hand organ while he turned the crank, but he is seldom seen now; the prevailing hand organ is the big piano organ on wheels.
